This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

## INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated Satisfactory.
An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income (LMI) neighborhoods, in a manner consistent with its resources and capabilities.

## The Lending Test is rated Satisfactory.

- The loan-to-deposit ratio is more than reasonable (considering seasonal variations and taking into account lending related activities) given the institution's size, financial condition, and AA credit needs.
- A majority of loans and other lending related activities are in the institution's AA.
- The geographic distribution of loans reflects reasonable dispersion throughout the AA.
- The distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among businesses of different sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the Lending Test rating.

## The Community Development Test is rated Satisfactory.

The institution's community development (CD) performance demonstrates adequate responsiveness to CD needs in its AA through CD loans, qualified investments, and CD services, as appropriate, considering the institution's capacity and the need and availability of such opportunities for CD in the institution's AA.

## DESCRIPTION OF INSTITUTION

Mega Bank (MB) is a state-chartered Chinese American commercial bank headquartered in San Gabriel, California (CA). MB does not operate under a holding company structure. The institution received a Satisfactory rating at its previous FDIC Performance Evaluation, dated November 13, 2018, based on the Interagency Small Institution Examination Procedures.

MB primarily operates as a commercial bank providing financial services to small- and midsized businesses. It operates four full-service branches in Southern CA. The bank closed the Rowland Heights branch, located in a middle-income census tract (CT), in April 2020. There has not been any merger or acquisition activity nor any branch openings since the prior evaluation.

Loan product offerings include commercial real estate, commercial and industrial, construction, multi-family, and Small Business Administration (SBA) government-guaranteed loans. MB does not originate residential mortgage loans; however, it purchases residential mortgage pools from other regulated financial institutions. The bank offers a variety of deposit products including checking, savings, money market, and certificates of deposit. Alternative delivery systems for bank services include online and mobile banking, remote deposit capture, and an automated teller machine (ATM) at each location.

As of the September 30, 2021, Report of Condition and Income, total assets were $\$ 450.3$ million, which included total loans of $\$ 344.6$ million. Deposits totaled $\$ 379.6$ million. The following table illustrates the mix of outstanding loans.

| Loan Portfolio Distribution as of 09/30/2021 |  |  |
| :--- | :---: | :---: |
| Loan Category | $\mathbf{\$ ( 0 0 0 s )}$ | $\mathbf{\%}$ |
| Construction, Land Development, and Other Land Loans | 73,178 | 21.2 |
| Secured by Farmland | 0 | 0.0 |
| Secured by 1-4 Family Residential Properties | 52,626 | 15.3 |
| Secured by Multifamily (5 or more) Residential Properties | 18,449 | 5.4 |
| Secured by Nonfarm Nonresidential Properties | 147,629 | 42.8 |
| Total Real Estate Loans | $\mathbf{2 9 1 , 8 8 2}$ | $\mathbf{8 4 . 7}$ |
| Commercial and Industrial Loans | 24,921 | 7.2 |
| Agricultural Production and Other Loans to Farmers | 0 | 0.0 |
| Consumer Loans | 4,110 | 1.2 |
| Obligations of State and Political Subdivisions in the U.S. | 0 | 0.0 |
| Other Loans | 23,648 | 6.9 |
| Lease Financing Receivable (net of unearned income) | 0 | 0.0 |
| Less: Unearned Income | 0 | 0.0 |
| Total Loans | $\mathbf{3 4 4 , 5 6 1}$ | $\mathbf{1 0 0 . 0}$ |
| Source: $09 / 30 / 2021$ Reports of Condition and Income |  |  |

Examiners did not identify any financial, legal, or other impediments that affect the institution's ability to meet the credit needs of its AA.

## DESCRIPTION OF ASSESSMENT AREA

MB designated one AA consisting of Los Angeles and Orange Counties. Los Angeles County wholly forms the Los Angeles-Long Beach-Glendale CA Metropolitan Division (MD) and Orange County wholly forms the Anaheim-Santa Ana-Irvine, CA MD. Together the two MDs comprise the greater Los Angeles-Long Beach-Anaheim, CA Metropolitan Statistical Area (MSA). The delineated AA conforms to CRA regulations and does not arbitrarily exclude LMI areas.

## Economic and Demographic Data

Based on the U.S. Census Bureau's 2015 American Consumer Survey (ACS), the AA consists of 2,929 CTs: 266 low-, 821 moderate-, 760 middle-, 1,028 upper-, and 54 CTs with no income designation. The AA delineation remains the same since the prior evaluation. MB's San Gabriel headquarters operate in a moderate-income CT, the Hacienda Heights branch operates in an upper-income CT, and both the Arcadia and Irvine branches operate in middle-income CTs.

The following table illustrates select demographic, housing, and median family income data within the AA.

| Demographic Information of the Assessment Area |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Demographic Characteristics | \# | Low <br> \% of \# | Moderate \% of \# | Middle \% of \# | Upper <br> \% of \# | $\begin{aligned} & \text { NA* } \\ & \text { \% of \# } \end{aligned}$ |
| Geographies (Census Tracts) | 2,929 | 9.1 | 28.0 | 26.0 | 35.1 | 1.8 |
| Population by Geography | 13,154,457 | 8.6 | 28.9 | 26.9 | 35.0 | 0.6 |
| Housing Units by Geography | 4,541,360 | 7.5 | 25.8 | 26.2 | 40.1 | 0.4 |
| Owner-Occupied Units by Geography | 2,082,030 | 2.7 | 17.6 | 27.5 | 52.2 | 0.1 |

| Median Family Income MSA - 31084 Los AngelesLong Beach-Glendale, CA |  | \$62,703 | Median Gross Rent |  |  | \$1,353 |
|  |  | Families Below Poverty Level | 13.0\% |

Source: 2015 ACS and 2020 D\&B Data, due to rounding totals may not equal 100.0\%, (*) the NA category consists of geographies that have not been assigned an income classification.

Examiners also obtained economic information from Moody's Analytics as of August 2021. The following includes discussions of employment conditions, housing affordability, and major employers in each county.

## Los Angeles County

Los Angeles County's economy is still recovering from the effects of the COVID-19 pandemic declared in March 2020. The subsequent lockdowns triggered severe economic disruptions, including job losses. After an initial rebound and through the end of 2020, job growth slowed significantly, with less than half of the lost jobs returning. The leisure and hospitality and health care sectors are gradually growing; however, the public sector is struggling and goods producers are trending downwards. While unemployment continues to decline toward pre-pandemic lows, the unemployment rate for the area remains high at 9.7 percent. The economic strengths for the area include a strong health care base; a growing technological presence; and global links through the entertainment, tourism, and fashion industries. Weaknesses include high living costs and susceptibility to drought, wildfires, and earthquakes. The top employers include CedarsSinai Medical Center, Los Angeles International Airport, and the University of California Los Angeles.

## Orange County

Orange County's economy is also recovering from the effects of the COVID-19 pandemic. The county also went into lockdown at the start of the pandemic followed by an initial rebound.
During that time, job growth slowed significantly, with nearly half of the lost jobs consisting of low-wage positions in the leisure and hospitality and retail sectors. However, with the recent reopening of Disneyland and Universal Studios Hollywood, tourism related industries are gradually improving within the area. At this point, the unemployment rate is still twice the prepandemic level, though the labor force is improving. The most recent unemployment rate was 6.0 percent. The housing market remains extremely tight as listings decreased significantly. The economic strengths of the area include a highly trained and well-educated work force, increased office space demand due to research and development, and the coastline and climate attracting residents and visitors. Weaknesses include the variability in the tourism industry, labor shortages in lower-wage positions, and sensitivity to business cycle fluctuations. The top employers for the area are Disneyland Resorts, the University of California Irvine, and St. Joseph Health.

## Competition

Financial services are highly competitive in the AA. Competing institutions range from small community banks to larger national financial institutions. According to the June 30, 2021, FDIC Deposit Market Share Report, 116 financial institutions operate 2,225 branches within the area. The top three institutions account for 45.3 percent of the branches and 45.8 percent of the deposits. MB ranks $71^{\text {st }}$ in deposit market share at less than 0.1 percent.

## Community Contacts

Examiners reviewed two existing contacts from organizations that serve the AA to help assess the area's current economic conditions, community credit needs, and potential opportunities for bank involvement. The contacts include a non-profit organization that promotes economic development and a small business development company. The contacts both stated that the COVID-19 pandemic caused significant job losses in the tourism industry due to the lockdowns and subsequent business closures, resulting in high unemployment rates. Both contacts
identified a significant credit need for grants and increased support for small businesses including local restaurants, sole proprietorships, and other small businesses affected by the mandatory closures. The contacts also noted a need for small business financial education and workforce development training, particularly in areas with diverse ethnic populations and in underserved areas. The contacts further stated that financial institutions could offer internships or mentorship programs to support youth development in preparation for entering the workforce.

## Credit and Community Development Needs and Opportunities

Based on economic information, demographic and economic data, and the community contacts, examiners determined that small business lending represents a primary credit need in the AA. Additionally, there is a CD need for community service activities that provide workforce development and training programs.

## SCOPE OF EVALUATION

## General Information

This evaluation covers the period from the previous evaluation dated November 13, 2018, to the current evaluation dated November 15, 2021. To evaluate performance, examiners applied the Interagency Intermediate Small Institution CRA Examination Procedures, which includes the Lending and CD Tests. Examiners performed a full-scope review of the bank's sole assessment area. Refer to the appendices for a description of the performance criteria.

## Activities Reviewed

Examiners determined that the institution's major product lines are small business and home mortgage loans. This conclusion considered the bank's business strategy, loan portfolio composition, and the number and dollar volume of loans originated during the evaluation period. MB does not offer small farm loans and originates a nominal volume of consumer loans. Since neither product represented a major product line, inclusion would not materially affect conclusions or ratings and examiners did not present them herein.

Examiners considered the universe of small business loans originated from January 1, 2018, to December 31, 2020. During the evaluation period, MB originated 9 small business loans totaling $\$ 4.1$ million in 2018, 32 small business loans totaling $\$ 9.9$ million in 2019, and 191 small business loans totaling $\$ 23.4$ million in 2020. Examiners analyzed and presented all three years of lending data due to the lending volume fluctuations. In 2020, MB experienced a substantial increase in small business loan originations due to the COVID-19 pandemic and subsequent creation of the Paycheck Protection Program (PPP) administered through the SBA.

Examiners also considered the universe of home mortgage loans made from January 1, 2018, to December 31, 2020. During the evaluation period, MB purchased 82 home mortgage loans totaling $\$ 42.9$ million in 2018, a single home mortgage loan totaling $\$ 800$ thousand in 2019, and 58 home mortgage loans totaling $\$ 33.3$ million in 2020. Examiners analyzed and presented all three years of lending data due to the lending volume fluctuations.

While both the number and dollar volume of loans are presented in the tables, examiners emphasized performance by number volume since it is a better indicator of the number of businesses and individuals served. Examiners also placed greater weight on the small business loan performance when reaching conclusions and overall ratings since it is the bank's primary product offering and the home mortgage loans were purchases. Examiners compared the lending performances to $\mathrm{D} \& \mathrm{~B}$ data, 2015 ACS data, and previous performances.

The evaluation of CD activities included all qualified activities since the prior evaluation dated November 13, 2018, to the start of this evaluation, November 15, 2021. Examiners reviewed loans, investments, and services where the primary purpose was CD and considered quantitative factors like the bank's financial capacity and qualitative factors like the benefit to the AA. Examiners also compared the bank's CD performance to its previous performances and the performances of similarly-situated institutions.

## CONCLUSIONS ON PERFORMANCE CRITERIA

## LENDING TEST

MB demonstrated satisfactory performance under the Lending Test. The satisfactory performances in the AA concentration, Geographic Distribution, and Borrower Profile criteria primarily support this conclusion. The outstanding Loan-to-Deposit ratio did not outweigh the other performances and further supported the conclusion.

## Loan-to-Deposit Ratio

MB's Loan-to-Deposit (LTD) ratio is more than reasonable given the institution's size, financial condition, and AA credit needs. The LTD ratio averaged 99.2 percent over the past 12 quarters from December 31, 2018, to September 30, 2021. The ratio ranged from a low of 89.4 percent as of September 30, 2021, to a high of 113.0 percent as of June 30, 2020. The LTD ratio fluctuated during the evaluation period in relation to the PPP lending, with an increase in the LTD ratio starting March 31, 2020. MB's LTD ratio was higher than two and slightly lower than one similarly-situated institutions. Examiners selected these institutions based on their asset size, geographic location, and lending focus. The following table shows MB's LTD ratio compared to the similarly-situated institutions.

| Loan-to-Deposit Ratio Comparison |  |  |
| :--- | :---: | :---: |
| Bank | Total Assets as of <br> $\mathbf{0 9 / 3 0 / 2 0 2 1}$ <br> $\mathbf{( \$ 0 0 0 s )}$ | Average Net <br> LTD Ratio <br> $\mathbf{( \% )}$ |
| Mega Bank | $\mathbf{4 5 0 , 3 1 4}$ | $\mathbf{9 9 . 2}$ |
| Similarly-Situated Institution \#1 | 215,575 | 86.4 |
| Similarly-Situated Institution \#2 | 372,918 | 88.3 |
| Similarly-Situated Institution \#3 | 399,809 | 104.9 |
| Source: Reports of Condition and Income 12/31/2018-09/30/2021 |  |  |

## Assessment Area Concentration

MB made a majority of its small business and home mortgage loans inside its AA. Overall, the bank originated or purchased 70.5 percent of loans by number and 75.2 percent of loans by dollar volume in the AA. The following table shows the distribution of lending inside and outside the AA for each year.

| Lending Inside and Outside of the Assessment Area |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Loan Category | Number of Loans |  |  |  | Total \# | Dollar Amount of Loans \$(000s) |  |  |  | $\begin{gathered} \text { Total } \\ \$(000 s) \end{gathered}$ |
|  | Inside |  | Outside |  |  | Inside |  | Outside |  |  |
|  | \# | \% | \# | \% |  | \$ | \% | \$ | \% |  |
| Small Business |  |  |  |  |  |  |  |  |  |  |
| 2018 | 7 | 77.8 | 2 | 22.2 | 9 | 3,230 | 78.5 | 885 | 21.5 | 4,115 |
| 2019 | 12 | 37.5 | 20 | 62.5 | 32 | 4,213 | 42.5 | 5,709 | 57.5 | 9,922 |
| 2020 | 141 | 73.8 | 50 | 26.2 | 191 | 16,675 | 71.4 | 6,681 | 28.6 | 23,356 |
| Subtotal | 160 | 69.0 | 72 | 31.0 | 232 | 24,118 | 64.5 | 13,275 | 35.5 | 37,393 |
| Home Mortgage |  |  |  |  |  |  |  |  |  |  |
| 2018 | 63 | 76.8 | 19 | 23.2 | 82 | 34,542 | 80.5 | 8,348 | 19.5 | 42,890 |
| 2019 | 1 | 100.0 | 0 | 0.0 | 1 | 800 | 100.0 | 0 | 0.0 | 800 |
| 2020 | 39 | 67.2 | 19 | 32.8 | 58 | 26,508 | 79.7 | 6,746 | 20.3 | 33,254 |
| Subtotal | 103 | 73.0 | 38 | 27.0 | 141 | 61,850 | 80.4 | 15,094 | 19.6 | 76,944 |
| Total | 263 | 70.5 | 110 | 29.5 | 373 | 85,968 | 75.2 | 28,369 | 24.8 | 114,337 |

Source: Bank Data, due to rounding totals may not equal 100.0\%

## Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AA. The reasonable performance in small business lending primarily supports this conclusion. As previously noted, examiners placed more weight on the small business loan performance; and focused on the number volume of loans in LMI geographies. Given the product weighting, the poor home mortgage performance did not outweigh the small business loan conclusions.

## Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the AA. In low-income CTs, the bank outperformed D\&B demographics by 9.3 percent in 2018, which reflects excellent performance. There were no loans originated in the low-income CTs in 2019, which reflects poor performance. However, in 2020, the bank slightly exceeded D\&B demographics by 1.7 percent, which reflects reasonable performance.

The performance in moderate-income CTs reflects excellent dispersion for all three years. The bank exceeded the demographic by 23.5 percent in 2018, 31.1 percent in 2019, and 7.1 percent in 2020.

Examiners noted that there are a limited percentage of businesses located in low-income CTs. However, MB's small business originations significantly increased in 2020 due to the SBA PPP lending, which resulted in the low-income CT dispersion that slightly exceeded but was comparable to the $\mathrm{D} \& \mathrm{~B}$ demographic. Given equal weighting, the reasonable performance in low-income CTs and the excellent performance in moderate-income CTs reflects overall reasonable dispersion. The following table illustrates MB's geographic distribution of small business loans by tract income level.

| Geographic Distribution of Small Business Loans |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Tract Income Level | \% of Businesses | \# | \% | \$(000s) | \% |
| Low |  |  |  |  |  |
| 2018 | 5.0 | 1 | 14.3 | 750 | 23.2 |
| 2019 | 4.8 | 0 | 0.0 | 0 | 0.0 |
| 2020 | 4.8 | 9 | 6.5 | 596 | 3.6 |
| Moderate |  |  |  |  |  |
| 2018 | 19.3 | 3 | 42.8 | 1,340 | 41.5 |
| 2019 | 18.9 | 6 | 50.0 | 2,068 | 49.1 |
| 2020 | 19.1 | 37 | 26.2 | 4,945 | 29.7 |
| Middle |  |  |  |  |  |
| 2018 | 25.3 | 1 | 14.3 | 490 | 15.2 |

## Home Mortgage Loans

The geographic distribution of home mortgage loans reflects poor dispersion throughout the AA. In low-income CTs, the bank's home mortgage lending exceeded the demographic by 3.6
percent in 2018, which reflects reasonable performance. However, the bank did not originate or purchase any home mortgage loans in 2019 or 2020, which reflects poor performance.

In moderate-income CTs, the 2018 lending performance fell below demographic data by 1.7, which reflects reasonable dispersion. In 2019, the bank did not originate or purchase any loans in moderate-income tracts, which reflects poor performance. In 2020, the lending performance was 12.5 percent below the demographic, which also reflects poor performance.

The number of home mortgage loans decreased significantly from 2018 to 2019, and rebounded in 2020. Since MB purchases residential mortgage pools, the rebound in 2020 was due in part to the COVID-19 pandemic as consumers began to refinance or purchase homes. The following table illustrates the geographic distribution of home mortgage loans by tract income level.

| Geographic Distribution of Home Mortgage Loans |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Tract Income Level | \% of Owner-Occupied Housing Units | \# | \% | \$(000s) | \% |
| Low |  |  |  |  |  |
| 2018 | 2.7 | 4 | 6.3 | 2,043 | 5.9 |
| 2019 | 2.7 | 0 | 0.0 | 0 | 0.0 |
| 2020 | 2.7 | 0 | 0.0 | 0 | 0.0 |
| Moderate |  |  |  |  |  |
| 2018 | 17.6 | 10 | 15.9 | 4,873 | 14.1 |
| 2019 | 17.6 | 0 | 0.0 | 0 | 0.0 |

## Borrower Profile

The distribution of borrowers reflects reasonable penetration among businesses of different sizes in the AA. Examiners initially focused on lending to businesses with gross annual revenues (GAR) of $\$ 1$ million or less. However, examiners had to consider the affect of loan volume fluctuations and the significant SBA PPP originations since those loans do not require GAR. Therefore, examiners reviewed all available performance context during the analysis and when reaching the overall conclusion.

Examiners did not evaluate home mortgage loans for this performance factor due to the lack of income information on the purchased loans.

## Small Business Loans

The distribution of small business loans reflects reasonable penetration. Examiners focused on the bank's volume of lending and trend analysis to support this conclusion.

In 2018, the bank's small business loans to businesses with GARs of $\$ 1$ million or less fell significantly below the demographic by 43.9 percent. However, MB only originated seven loans in total. In 2019, the bank originated 75.0 percent of its small business loans to businesses with GARs of $\$ 1$ million or less. This performance reflected an increasing trend despite trailing the demographic by 13.9 percent.

In 2020, MB significantly increased its business loan originations; however, the increase was primarily due to the COVID-19 pandemic and subsequent SBA PPP originations. The PPP did not require revenue disclosure for loan approval and the bank did not voluntarily collect that information. A substantial majority of the loans fall into the Revenue Not Available category. However, MB did originate eight loans with available GAR information and five were to small businesses with GARs of $\$ 1$ million or less. While it is a slight decline from the 2019 performance, the trend remains stable.

Given these considerations, the bank's performance reflects reasonable penetration among businesses of varying sizes. The following table illustrates the bank's distribution of small business loans by GAR level.

| Distribution of Small Business Loans by Gross Annual Revenue Category |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Gross Revenue Level | \% of Businesses | \# | \% | \$(000s) | \% |
| <=\$1,000,000 |  |  |  |  |  |
| 2018 | 86.8 | 3 | 42.9 | 1,970 | 61.0 |
| 2019 | 88.9 | 9 | 75.0 | 3,025 | 71.8 |
| 2020 | 89.3 | 5 | 3.6 | 1,890 | 11.3 |
| >\$1,000,000 |  |  |  |  |  |
| 2018 | 6.0 | 4 | 57.1 | 1,260 | 39.0 |
| 2019 | 5.0 | 3 | 25.0 | 1,188 | 28.2 |
| 2020 | 4.6 | 3 | 2.1 | 1,265 | 7.6 |
| Revenue Not Available |  |  |  |  |  |
| 2018 | 7.1 | 0 | 0.0 | 0 | 0.0 |
| 2019 | 6.2 | 0 | 0.0 | 0 | 0.0 |
| 2020 | 6.1 | 133 | 94.3 | 13,520 | 81.1 |
| Totals |  |  |  |  |  |
| 2018 | 100.0 | 7 | 100.0 | 3,230 | 100.0 |
| 2019 | 100.0 | 12 | 100.0 | 4,213 | 100.0 |
| 2020 | 100.0 | 141 | 100.0 | 16,675 | 100.0 |

Source: 2018, 2019, \& 2020 D\&B Data; Bank Data; "--" data not available, due to rounding totals may not equal $100.0 \%$
As stated previously, there was a significant increase in the total number of small business loans from 12 in 2019 to 141 in 2020. The increase was a result of the SBA PPP originations. The affect on MB's lending performance was significant as the number and dollar amounts greatly increased. Examiners noted the following loan amount activity. While examiners could not draw any small business conclusions, the following table illustrates the bank's distribution of SBA PPP loans by loan size.

| Distribution of SBA PPP Loans by Loan Size (2020) |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Loan Size | $\#$ | $\mathbf{\%}$ | $\$(\mathbf{0 0 0 s})$ | $\mathbf{\%}$ |
| $<\$ 100,000$ | 108 | 80.6 | 4,015 | 28.4 |
| $\$ 100,000-\$ 249,999$ | 12 | 8.9 | 2,030 | 14.4 |
| $\$ 250,000-\$ 1,000,000$ | 14 | 10.5 | 8,080 | 57.2 |
| Total | $\mathbf{1 3 4}$ | $\mathbf{1 0 0 . 0}$ | $\mathbf{1 4 , 1 2 5}$ | $\mathbf{1 0 0 . 0}$ |

## Response to Complaints

MB did not receive any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

## COMMUNITY DEVELOPMENT TEST

MB's CD performance demonstrated adequate responsiveness to CD needs in its AA through CD loans, qualified investments, and CD services, as appropriate, considering the institution's capacity and the need and availability of such opportunities for CD in the institution's AA. The adequate records regarding the bank's CD loans, qualified investments, and CD services support this conclusion.

## Community Development Loans

The bank exhibited an adequate record regarding its CD lending. The adequate performance by dollar volume of CD loans and the adequate responsiveness to the AA needs primarily support this conclusion. MB originated 13 CD loans totaling $\$ 23.6$ million during the evaluation period. This level of activity represents 6.0 percent of average total assets (ATA) and 7.4 percent of average total loans (ATL) since the prior evaluation.

MB's CD lending increased since the prior evaluation where it had 2 CD loans totaling $\$ 5.1$ million, representing 1.5 percent of ATA and 2.0 percent of ATL. However, the bank's CD lending performance was below the similarly-situated institutions. The following table shows the number and dollar volume of CD loans originated by year and purpose.

| Community Development Lending |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Activity Year | Affordable Housing |  | Community Services |  | Economic Development |  | Revitalize or Stabilize |  | Totals |  |
|  | \# | \$(000s) | \# | \$(000s) | \# | \$(000s) | \# | \$(000s) | \# | \$(000s) |
| 2018 | 0 | 0 | 0 | 0 | 2 | 2,957 | 0 | 0 | 2 | 2,957 |
| 2019 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| 2020 | 0 | 0 | 2 | 5,000 | 5 | 8,409 | 2 | 2,411 | 9 | 15,820 |
| 2021 | 0 | 0 | 1 | 2,900 | 1 | 1,950 | 0 | 0 | 2 | 4,850 |
| Total | 0 | 0 | 3 | 7,900 | 8 | 13,316 | 2 | 2,411 | 13 | 23,627 |
| Source: Bank Records |  |  |  |  |  |  |  |  |  |  |

All loans originated in the AA. The following are notable examples of the bank's CD lending:

- In 2020, MB originated a loan for $\$ 1.8$ million to purchase a new property for an existing pre-school and after-school program located in a moderate-income area. The relocation will expand enrollment for 20 more pre-school students and 15 more after-school participants. The increase in students and participants will create permanent LMI jobs by hiring additional teachers.
- In 2020, MB originated a $\$ 2.9$ million commercial line of credit to a non-profit organization that provides support services to foster children and children with mental health issues.

## Qualified Investments

MB displayed an adequate record regarding the qualified investments. The adequate performance regarding the dollar volume of qualified investments and the adequate responsiveness to the AA needs primarily support this conclusion. Since the prior evaluation, MB made 35 qualified investments and donations totaling nearly $\$ 4.1$ million. This level of activity represents 1.0 percent of ATA and 21.6 percent of average total securities (ATS) since the previous evaluation.

MB's level of investment activity increased since the previous evaluation where it had 11 qualified investments totaling $\$ 510$ thousand, representing 0.2 percent of ATA and 1.5 percent of ATS. Examiners noted that the bank's level of qualified investments was higher than the similarly-situated institutions.

All but one of this evaluation's investments consisted of certificates of deposit in six different Community Development Financial Institutions (CDFIs) to support residential mortgage lending. The remaining investment was an equity investment to a minority-led and technology-enabled lender that provides financing to small business owners and their underserved communities. The qualified investments primarily support affordable housing initiatives. The following table illustrates qualified investment by year and CD purpose.

| Qualified Investments |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Activity Year | Affordable Housing |  | Community Services |  | Economic Development |  | Revitalize or Stabilize |  | Totals |  |
|  | \# | \$(000s) | \# | \$(000s) | \# | \$(000s) | \# | \$(000s) | \# | \$(000s) |
| Prior Period | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| 2019 | 7 | 1,325 | 0 | 0 | 0 | 0 | 0 | 0 | 7 | 1,325 |
| 2020 | 7 | 1,346 | 0 | 0 | 0 | 0 | 0 | 0 | 7 | 1,346 |
| YTD 2021 | 6 | 1,101 | 0 | 0 | 1 | 250 | 0 | 0 | 7 | 1,351 |
| Subtotal | 20 | 3,772 | 0 | 0 | 1 | 250 | 0 | 0 | 21 | 4,022 |
| Qualified Grants \& Donations | 0 | 0 | 14 | 41 | 0 | 0 | 0 | 0 | 14 | 41 |
| Total | 20 | 3,772 | 14 | 41 | 1 | 250 | 0 | 0 | 35 | 4,063 |
| Source: Bank Data |  |  |  |  |  |  |  |  |  |  |

The following are notable examples of CD grants and donations in the AA:

- In 2019, MB donated $\$ 1,000$ to a housing agency that develops and maintains quality affordable housing in Los Angeles.
- During the evaluation period, MB donated a total of \$20,000 to a scholarship fund that benefits LMI students. High school seniors from either Los Angeles or Orange Counties may apply.

## Community Development Services

MB established an adequate record of providing CD services. The bank primarily provided CD services for community service or affordable housing organizations. The CD services were adequately responsive to the AA needs, which primarily support the conclusion.

Since the prior evaluation, employees provided 221 CD service hours of financial expertise or technical assistance to 5 different CD organizations in the AA. This level of CD services reflects an increase since the previous evaluation's 20 hours of CD services to 4 different organizations. Additionally, the CD services provided during the evaluation were standard or routine activities. Examiners noted that the bank's CD service performance was lower than one but higher than another similarly-situated institution. The following table shows CD service activities by hours, year, and CD purpose.

| Community Development Services |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Activity Year | Affordable <br> Housing | Community <br> Services | Economic <br> Development | Revitalize <br> or Stabilize | Totals |
|  | $\#$ | $\#$ | $\#$ | $\#$ | $\#$ |
|  | 0 | 84 | 0 | 0 | $\mathbf{8 4}$ |
| 2020 | 0 | 38 | 0 | 0 | $\mathbf{3 8}$ |
| YTD 2021 | 0 | 71 | 28 | 0 | $\mathbf{9 9}$ |
| Total | $\mathbf{0}$ | $\mathbf{1 9 3}$ | $\mathbf{2 8}$ | $\mathbf{0}$ | $\mathbf{2 2 1}$ |
| Source: Bank Data |  |  |  |  |  |

The following are notable examples of CD services:

- Two employees participated volunteered with two different organizations to prepare free tax returns for LMI individuals.
- Several employees used their financial expertise to select recipients for scholarships benefitting LMI students.

Additionally, MB's corporate office and branch in San Gabriel is located in a moderate-income CT. There is also an ATM at this location. The bank offers the same loan and deposit products, and alternative delivery systems noted under the Description of Institution section at this location. The branch provides adequate responsiveness in availing services to low- and moderate-income individuals.

## DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank's compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and the Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

## APPENDICES

## INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA

## Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
3) The geographic distribution of the bank's loans;
4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

## Community Development Test

The Community Development Test considers the following criteria:

1) The number and amount of community development loans;
2) The number and amount of qualified investments;
3) The extent to which the bank provides community development services; and
4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

## GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:
(1) Support affordable housing for low- and moderate-income individuals;
(2) Target community services toward low- and moderate-income individuals;
(3) Promote economic development by financing small businesses or farms; or
(4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Institution CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Institution CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:
(1) Has as its primary purpose community development; and
(2) Except in the case of a wholesale or limited purpose institution:
(i) Has not been reported or collected by the institution or an affiliate for consideration in the institution's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
(ii) Benefits the institution's assessment area(s) or a broader statewide or regional area including the institution's assessment area(s).

Community Development Service: A service that:
(1) Has as its primary purpose community development;
(2) Is related to the provision of financial services; and
(3) Has not been considered in the evaluation of the institution's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middleincome geography will be designated as distressed if it is in a county that meets one or more of the following triggers:
(1) An unemployment rate of at least 1.5 times the national average;
(2) A poverty rate of 20 percent or more; or
(3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5 -year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000 . The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.
Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.
Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $\$ 1$ million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $\$ 500,000$ or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middleincome geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).
"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.
